Soliman Ramadan

Front End Developer

Minya, Egypt | (20)1021490920 | soft9.me@gmail.com | [Github](#) | [LinkedIn](#) | [MY Website](#)

ABOUT ME

I am a **Frontend Developer** with experience in **Next.js**, **React**, and **Tailwind CSS**, focused on building responsive and fast web applications. I am currently seeking **part-time** opportunities to apply my skills and contribute to high-quality projects.

SKILLS

- TypeScript (ES6) -Rest API
- Next.js (Mongoose | Prisma) TailwindCSS, Bootstrap
- **State Management**: Recoil, Redux, Redux Toolkit
- **Animations**: Framer Motion
- **Templating**: Blade (Laravel) - Laravel (MySQL)
- **Node**.js & express.js

PROJECTS

[Quran karim](#) 16/6/2024 - 24/6/2024

Optimized with **React** and **Vite** for fast performance, featuring:

- **API Interactions**: Efficient data retrieval with Axios.
- **Audio Features**: Smooth Quran recitation playback.
- **Prayer Times**: Dynamic display of accurate prayer times.
- **Quran Search**: Quick and powerful verse search.
- **Framer Motion**: Modern animations for an engaging experience.

[Powerful Dashboard with Filament in Laravel](#) 28/07/2024 – 01/08/2024

Building a robust dashboard using **Filament** in Laravel, featuring:

- **Chart Integration**: Visualize data with seamless chart support.
- **Model Management**: Efficient CRUD operations for data consistency.
- **Customization**: Filament's flexibility for a tailored admin panel.
- **High Performance**: Optimized for handling complex data and large-scale operations.

EXPERIENCE

Upwork   **2024 – present**

Full Stack Developer (MERN) & Laravel

From the start of my career, I've focused on delivering high-quality, best-practice, and reusable code, always aiming for the best possible results
